

South American Products International

A safe way to do business in Brazil

SAPI Foods is a Brazilian company established and founded as a result of customer needs for specific products and service in the protein market.

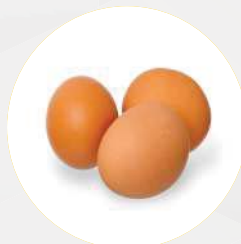

Chicken

Duck

Eggs

Quail

Pork

Beef

Mutton

Lamb

For 20 years, SAPI has been a trusted name in the international market. Our team knows the food industry well, and we use this knowledge to benefit both suppliers and customers.

We do more than what you might expect from traders and meat suppliers. Our goal is to give you great service and expertise that stands out from the rest. We work with suppliers who have top-quality certifications. This means you get the best from us, every time.

Objectives

It is our objective to provide the following services to make the purchase of each and every consignment trouble free and give our customers peace of mind. Including:

- ✓ Building a professional and competent supplier base;
- ✓ Offering and supplying the product according to customer specification;
- ✓ Providing up to date information about pending/effectuated shipments;
- ✓ Procuring at competitive prices;
- ✓ Committing the supplier to provide the product with the right specification and packaging;
- ✓ Facilitation of timeous shipments;
- ✓ Facilitation of timeous and correct documentation;
- ✓ On-Line tracking of containers to the port of destination;
- ✓ Providing regular offers of a wide selection of Poultry, Beef, Duck, Eggs and Pork products from our loyal supplier base for your consideration.

SAPI Foods has been developing a very strong supply power in Brazil and South America. In addition we have connections in over 100 countries so that we follow the market trends and share information with our business partners.

Our objective extends beyond deals and negotiations with clients. We strive to offer support and effective solutions to meet the protein demand in Brazil and across South America.

Location

Our commercial office is strategically located in the port city of Itajaí, in the state of Santa Catarina. This port accounts for 50% of all meat exports, providing us with a significant logistical advantage for our import and export operations.

Furthermore, the proximity to important production and distribution centers enables us to maintain a direct and efficient connection with our partners and customers throughout the supply chain.

International fairs

SAPI Foods proudly participates in the most important international fairs. These platforms are essential for us to showcase our products and solutions to a global audience, promoting partnerships and strengthening our positioning in the international market.

Company

The company is strategically situated in the south region of Brazil, where the majority of poultry slaughter facilities are located. This proximity enables us to maintain regular, face-to-face contact with our suppliers.
